Why Ergonomic Workplace Solutions?

What are the positive results of ergonomics as the complete workplace solution?

Increased Productivity –

It has been shown through an independent study conducted by the I.R.S. that productivity decreases as the day progressed; however, ergonomic seating can have a measurable positive impact on worker productivity.

Return on Investment – ROI –

The investment in ergonomic workplace solutions must always come at a price – and a good manager will want to use such information as specifically as possible. The reality is that the additional cost for an adjustable workstation can be recovered in three years or less.

Easy to order!

- Visit ergogenesis.com to find your local sales rep
- Fax to 936.825.1725
- Call 800.364.5299
- Email to orders@ergogenesis.com
